FEATURES

• The environment-friendly products do not contain cadmium and lead.

IMPORTANT NOTICE

TERMS

• Rated Functioning Temperature (Ts)
The acceptable tolerance is +0, -10°C except PSE. The one for PSE is ±7°C.

• Holding Temperature (C-UL & CSA: Th, CCC: Tc)
The highest temperature of the thermal cutoff at which it will not open the circuit for 168 hours while passing rated current. (Applicable to CSA, C-UL and CCC)

• Maximum Temperature Limit (Tm)
The highest temperature at which continuity does not occur for 10 minutes after the fusing off of the thermal cutoff.

UL, C-UL:E50082, CSA: LR40743, VDE:923000-1171-0003

*1: Certified by CSA  *2: Maximum allowable normal use temperature

Cut-off temperature is measured with silicone oil bath of which temperature is increased at the rate of 1°C/min. Detecting current is 0.1A or less.

Th and Tc are for C-UL(CSA) and CCC respectively.
